Pre-School Curriculum

Bizzy Bees follows the Early Years Foundation Stage which is centered on play. Play involves being imaginative, original, innovative and creative. It also involves those taking part in ideas, feelings and relationships and allows the child to use first hand experiences. Children are naturally motivated to play, and through their play attempt to solve problems arising from the physical and social world, which is important to them.

The Foundation Stage Curriculum is organized into seven areas of learning, three 'prime' areas Physical Development, Communication and Language and Personal, Social and Emotional Development and four 'specific' areas Literacy, Mathematics, Understanding the World and Expressive Arts and Design these areas of learning underpin all future learning. Each area of learning has a set of learning goals. Children's progress is recorded to identify developing knowledge, skills, understanding and attitudes which they will need if they are to achieve these learning goals by the end of the foundation stage.
